

Welcome to Mr. Arden Lee, our new Business Development Manager!

As part of our effort to provide better support to our existing network of licensees across Asia, Termguard Asia has recruited Mr. Arden Lee as our new Business Development Manager with effective from 1 July 2007.

Mr. Lee holds an advance diploma in building engineering and has vast experience in building construction and development. During his previous employment with NLC, our licensee in Malaysia, he led the entire Termguard team who is responsible for planning and execution of installation of Termguard System.

With his skills, knowledge and experience in the field, we are confident that Arden will be able to assist and support our network of licensees in system design, training and installation of Termguard System.
